

Griffith Family 2145 California Ave.

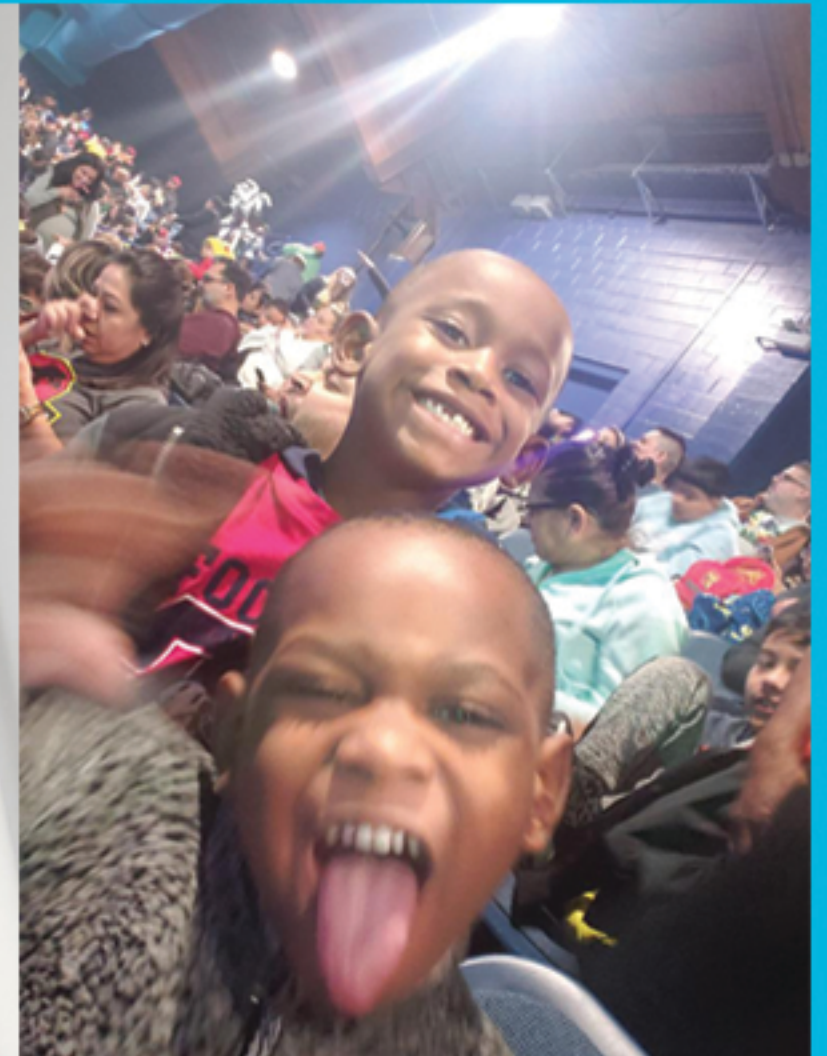

Joshua grew up in a Habitat house. His mother, Katerina has been a role model to him. Their family moved into their Habitat home in 2003. Katerina paid off their home and rents it today to a mother who was living in a hotel with her two children. She used the Habitat model to qualify the mother. Josh has witnessed his mother go from having nothing to continuing her education, establishing a career, and today becoming Dr. Katerina Bell. She contributes her success to the affordable mortgage and stability that Habitat provided her family.

Josh wants the same foundation that his mother had. He sees the value in partnering with Will County Habitat for Humanity. Josh is currently living with his mother. He wants more for his two boys and himself. Because the boys are growing up, the need for more space is becoming vital. He also wants his dignity, the ability to show his boys that he can provide for them and be the role model his mother was to him.

Joshua - Single Father of two

Works at - PFJ (Pilot) Warehouse in Minooka, IL

He is attending Joliet Junior College part-time. He recently took his exams to be accepted into the Nursing Program. Josh is patiently waiting on the results. Josh is inspired by his mother, Habitat Partner - Dr. Katerina Bell.
