The Cause

Local Chicagoland breweries, the Joliet Bourbon Club, and community partners are uniting to make a lasting difference in our community by building a home for a veteran and their family as well as support the work of Habitat for Humanity across the region.

A safe and stable home is vital for the long-term success of families, as homeownership allows men and women to save more, invest in education, live in healthier environments and increase their financial stability. Investing in people in our own communities is an investment that pays dividends for decades to come.

The Fun

Be prepared to sample craft beers and bourbons from area breweries, as well as delicious food pairing options. There will be raffles, music and much more!
